*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Some whales are very smart that people train them to perform different tricks at shows. Their beautiful characteristics and appearance make them very attractive to people. Here are some other facts that you may not know about whales: Whales are mammals just like humans. That means babies grow inside the mother until they are born. Then they are taken care of by their parents until they mature. Whales have fewer species than other animals. Female whales are called cows, while the male whales are called bulls. Baby whales are called calves.
