

## Capitalism: A Structural Genocide

---

By Garry Leech

Zed Books Ltd. Paperback. Book Condition: new. BRAND NEW, Capitalism: A Structural Genocide, Garry Leech, In the wake of the global financial crisis, and ongoing savage government cuts across the world, Garry Leech addresses a pressing and necessary topic: the nature of contemporary capitalism, and how it inherently generates inequality and structural violence. Drawing on a number of fascinating case studies from across the world - including the forced displacement of farmers in Mexico, farmer suicides in India, and deaths from preventable and treatable diseases in Sub-Saharan Africa, as well as the unsustainable exploitation of the planet's natural resources - Leech provocatively argues that global capitalism constitutes a form of genocide, and that this genocide is inherent in any social system that adheres to the logic of capital. Essential and eye-opening the book questions the legitimacy of a system that inevitably results in such large-scale human suffering, while going beyond mere critique to offer a more egalitarian, democratic and sustainable global alternative.

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*
